eSignPay™ provides secure credit card and electronic check payment processing. To capture payment, simply send an eSignPay™ payment authorization template to your customer. Upon receipt of a signed payment authorization form; eSignPay™ will capture the payment data and process the customer transaction over a secure encrypted SSL connection with the Planetauthorize payment gateway.

eSignPay™ users can submit and process credit card payments, electronic check payments, review payment history and view document signing status using their mobile device.

- Add the convenience of Capturing Customer Payments to your Secured Signing service. eSignPay™ supports multi-currency payment processing.
- Empower your sales team with the ability to Close Deals Faster. Significantly increase the number of closed deals and revenue booked.
- Transform your business with electronic payments. Accept encrypted real-time payments on your mobile phone, tablet, laptop or desktop.
- Save time and money while you Lower Your Cost per Transaction.

The eSignPay™ solution significantly reduces risk against chargeback claims since each eSignPay™ transaction includes a record of an encrypted Secured Signing payment authorization form. Business owners can quickly produce documentation detailing customer payment authorization; thereby resolving the dispute.

eSignPay™ for Secured Signing is available for iPhone/iPad, Android Phone/Tablets and Windows Tablets/Desktops.

Service Features and Benefits

Get Paid Faster – Improve customer satisfaction and enhance customer loyalty by making payment acceptance easy.

Reduce Costs – Eliminate the expense of maintaining separate and disjointed payment solutions. Reduce your Accounts Receivables while lowering transaction costs.

Increased Productivity – Simplify the payment process and close deals faster. Increase revenue and finalize contracts in real-time.

Stability and Reliability – Planetauthorize™ processes millions of dollars worth of transactions every month, and is continuously monitored for performance.

* A merchant account is required to use eSignPay with the Planetauthorize payment gateway service. Additional fees apply. Contact your SaleManager representative for more information.
